EDUCATION

University of Toronto

EXPECTED GRADUATION APRIL 2021

- BAsC in **Engineering Science** planning to specialize in **Machine Intelligence**.
- **3.51/4.00 CGPA**
- President's Entrance Scholarship **\$5,000**
- Dean's Merit Award **\$5,000**

SKILLS

- Knowledge in **HTML, CSS, JavaScript, Python**, and **C**.
- Proficiency in Sketch, Invision, and Craft.
- Working knowledge in Adobe Photoshop, Illustrator, InDesign, and Experience Design.
- Understanding of UI/UX design for mobile and desktop.

RELEVANT COURSES

- Intro to Comp. Programming
- Comp. Algorithms & Data Structures
- Fundamentals of Elec. Circuits
- Digital & Computer Systems
- Linear Algebra

LISA LI

ENGINEERING EXPERIENCE

Morneau Shepell, Markham — IT Intern

2017, 2018

- Participated in creating and developing features on websites and apps using **JavaScript, HTML**, and **CSS**.
- Created mockups for prototyping and development for 10+ projects.
- Made UI/UX design decisions, created wireframes, and designed screens that fit company branding.

PROJECT HIGHLIGHTS

Autonomous Tire Stacking Robot, Eng. Design Course

2019 (ongoing)

- Programming the robot's microcontroller in C and Assembly to perform task autonomously and collect data to communicate with user.
- Designing and building a scaled-down robot capable of detecting poles and stacking toy tires on them.

UofTHacks VI, 1st Place — notepal

2019

- Implemented an automated note-taking device that uses computer vision and Speech-To-Text NLP to generate LaTeX documents.
- Designed and built a website using **JavaScript, HTML**, and **CSS** to display documents retrieved from back-end file system and the cloud.
- Awarded 1st place and recipient of Best Use of Google Cloud Platform award at MLH hackathon out of 100+ projects and 400+ participants.

Personal Portfolio Website **www.lisali.me**

2018

- Designed and built a website using **JavaScript, HTML**, and **CSS** to showcase my work.

AI Chess Player, Comp. Algorithms & Data Structures Course

2018

- Designed and implemented an autonomous chess player in **Python** with a minimax decision making algorithm.
- Further enhanced my knowledge and application of trees and recursion.

EXTRACURRICULARS

IEEE UofT Branch — Graphics Designer

2018 - Present

- Help students gain technical expertise and industry exposure in the ECE field.
- Responsible for UI design and creating marketable content for events such as the club's first ever MLH affiliated hackathon, *MakeUofT*.

U of T Machine Intelligence Student Team — Graphics Director

2017 - Present

- Lead a team to design and implement the club's website and marketing campaigns centered around machine learning and data science.
